

## EMC Engineer

---

CETECOM Inc. is a leader in the wireless communications testing industry. Our clients are some of the most well-known and influential companies in this field, both inside and outside Silicon Valley. We focus on emerging technologies such as GSM/GPRS, EDGE, W-CDMA, LTE, Bluetooth, 802.11x, etc. with test labs in US, Europe and Asia.

The EMC Engineer will report directly to the Director of Compliance.

### **Major Responsibilities:**

- Responsible for performing EMC-, radio- and SAR measurements mainly for wireless communications products according to European and FCC standards
- Responsible for planning and scheduling tests
- Interface with customers on a technical level
- Synchronize with the Project Management team and other test teams (e.g. antenna performance, Bluetooth, WI-Fi, acoustic...) on current projects.

### **Job Requirements:**

- Two years experience in EMC, RF and SAR measurements
- Excellent verbal and written communication skills
- Basic MS Word and Excel skills
- Team and customer oriented.
- A degree in electrical engineering with emphasis on RF/EMC is preferred.

We offer competitive salary along with an excellent benefits package including 100% employer paid medical/vision/dental/disability/life insurance, 401(K) plan with matching, tuition reimbursement, a generous PTO plan, paid holidays, and more.

This is a full time position for our Milpitas Location.
