

CETECOM is a globally active technology service provider for telecommunications and information technology based in Essen (Germany). For many years our worldwide subsidiaries have been providing our international customers a comprehensive service portfolio that ranges from consulting in the fields of technological and legal requirements and the operation of accredited test laboratories to the worldwide approval of products and systems. We also take an active role in the development of specifications and standards on a European and worldwide level.

Our main technological fields are as follows:

- Digital wireless technology (LTE, UMTS, GSM, CDMA, Bluetooth®)
- Wireless and satellite technology
- Electromagnetic Compatibility

We are looking to expand our constantly growing team in the Project Development division with dedicated employees keen to face the tasks and challenges the market of the future, mobile communications, presents.
