

Press Release

First LTE RF test cases validated by CETECOM
*CETECOM announces initial validation of LTE RF-Transmitter test cases on
Rohde & Schwarz test platform*

FOR IMMEDIATE RELEASE: April 26, 2010 – CETECOM has recently submitted the following RF test cases on a Rohde & Schwarz test platform (R&S TS8980 [TP 98]) to the Global Certification Forum (GCF) for validation:

- TC 6.2.2 UE Maximum Output Power
- TC 6.3.2 Minimum Output Power
- TC 6.5.2.4 EVM equalizer spectrum flatness

These test cases were approved during the GCF-CAG#22 meeting (20-21 April 2010) held in Beijing, China in FDD-7.

This high quality level was reached due to a long validation experience and an outstanding joint effort with Rohde & Schwarz. The recent developments are a big step forward in upgrading of CETECOM's LTE services and test solutions in general.

"We are constantly improving our services and test solutions to maintain a high level of quality as we adapt to meet the markets' needs," said Dr. Harald Ansoerge, CTO of CETECOM according to the recent results at the GCF-CAG#22 meeting. "With this goal in mind it is very exciting to be part of this important process."

CETECOM will also submit LTE test case validation results to PTCRB Validation Group (PVG) for agreement soon and PTCRB will review these LTE test case validations in FDD-13 from CETECOM on the next PTCRB meeting #60.

###

About CETECOM

CETECOM (www.cetecom.com) is renowned as neutral, experienced partner of the telecommunications and information technology industries and offers a unique service portfolio which covers the entire life cycle of a mobile communications product, contributes to the smooth running of products and applications and ensures that they meet international standards.

CETECOM's portfolio includes consulting and training, development of test solutions, validation services, testing in accredited laboratories (LTE, 3G, GSM, Application Enabler, OTA Performance and EMC), field trials, certification and approval handling.

Being a member of numerous specialist bodies, CETECOM is also actively involved in the development and standardisation of global specifications for future technologies.

About Rohde & Schwarz

Rohde & Schwarz is an independent group of companies specializing in electronics. It is a leading supplier of solutions in the fields of test and measurement, broadcasting, radiomonitoring and radiolocation, as well as secure communications. Established more than 75 years ago, Rohde & Schwarz has a global presence and a dedicated service network in over 70 countries. It has approx. 7400 employees and achieved a net revenue of € 1.2 billion (US\$ 1.7 billion) in fiscal year 2008/2009 (July 2008 to June 2009). Company headquarters are in Munich, Germany.
