

Press Release

CETECOM Now Offering LTE Conformance Testing for PTCRB

CETECOM GmbH becomes one of the first test laboratories in the world to be PTCRB accredited for LTE.

FOR IMMEDIATE RELEASE: March 17, 2010 – [CETECOM](#), a global leader in testing, certification and consulting for the wireless industry has become one of the first test laboratories in the world to be PTCRB accredited for LTE. This allows CETECOM to begin offering LTE conformance testing to device manufacturer's targeting the North American market.

During the PTCRB #59 meeting held in Fort Lauderdale, Florida, U.S.A. CETECOM GmbH became PTCRB accredited for LTE. CETECOM is one of the first test laboratories in the world to have this accreditation.

In December 2009 the CETECOM laboratory in Essen (Germany) enhanced its accredited testing service range for the mobile communications industry. The DGA "Deutsche Gesellschaft für Akkreditierung mbH" (former DATech GmbH) confirmed the testing laboratory is competent under the terms of DIN EN ISO/IEC 17025 to carry out tests in the field of LTE/E-UTRA.

The accreditations enforce CETECOM's position as one of the world's leading test laboratory offering quality service for the latest wireless technologies.

###

About CETECOM

CETECOM (www.cetecom.com) is renowned as neutral, experienced partner of the telecommunications and information technology industries and offers a unique service portfolio which covers the entire life cycle of a mobile communications product, contributes to the smooth running of products and applications and ensures that they meet international standards. CETECOM's portfolio includes consulting and training, development of test solutions, validation services, testing in accredited laboratories (LTE, 3G, GSM, Application Enabler, OTA Performance and EMC), field trials, certification and approval handling. Being a member of numerous specialist bodies, CETECOM is also actively involved in the development and standardisation of global specifications for future technologies.
