

CETECOM (www.cetecom.com) is a global service provider for consulting, testing and certification and works with customers of nearly every industry vertical on various innovative technologies. With locations across the globe, CETECOM is able to engage with its customers on a personal level while addressing customer needs to test, improve and certify their products. CETECOM's test and service centers in Europe, North America, and Asia are equipped with cutting edge test systems from multiple manufacturers, and form a worldwide service network to ensure international standards are met. Continuous investments guarantee the company's technical equipment keeps pace with new market developments.

We're looking for people who thrive in a fast paced environment, deliver as a way of life and are inspired to make a positive impact.

Project Manager International Type Approval (Homologation)

Your team

The International Type Approval (ITA) team is responsible for the management of international projects in order to obtain approvals for radio and telecommunications products. Team members are expected to establish effective working relationships, founded on trust and transparency, with our internal and external partners. Sound judgment, excellent communication skills and the ability to drive decisions through consensus and influence change are a must.

The International Type Approval (Homologation) Project Manager is a global regulatory expert for a specific topic or region of the world. Very good communication skills and interpersonal skills in dealing with national and international customers are expected.

Your role

- Project management of international projects in order to obtain approvals for worldwide radio and telecommunications products
- Support sales and help identify customer needs and develop optimal solutions
- Communicate with partners and customers to provide support and advice
- Identify the registration requirements of foreign registration offices
- Review of customer documentation for completeness and correctness
- Coordination of testing procedures in different laboratories
- Regular reporting of project status to the customer
- Working with CETECOM ITA groups in Europe and Asia
- Other duties as assigned

Your profile

- Minimum of 3 years homologation/regulatory experience
- Bachelor's degree in Engineering or Business, Marketing, or Communications with strong technical aptitude
- Excellent written and verbal communication skills of English and another language; preferably fluent in Russian, French, Arabic, Portuguese, or Spanish, with familiarity with the associated country culture a plus
- Project management experience
- Demonstrated ability to set priorities and deliver on commitments
- Strong technical writing abilities
- Proactive work style with ability to manage multiple tasks
- Strong leadership, decision making, and problem solving skills
- Detail oriented with the ability to produce timely, accurate, and concise proposals
- Self-directed with ability to be flexible regarding evolving priorities
- International perspectives / Global awareness

We offer competitive salary along with an excellent benefits package including 100% employer paid medical/vision/dental/disability/life insurance, 401(K) plan with matching, tuition reimbursement, a generous PTO plan, paid holidays, and more.

For consideration, please submit your CV to HR: us-hr@cetecom.com
