

CETECOM (www.cetecom.com) is renowned as an independent testing laboratory offering a full suite of consulting, testing and certification services for telecommunication technologies. Besides testing of familiar standards like GSM, WCDMA, LTE, CDMA, Bluetooth, Wi-Fi and NFC, CETECOM also performs a wide range of consulting and testing of mobile software applications, OTA antenna testing, SAR, EMC, Smart Card, acoustics and batteries. Our clients are some of the most well-known and influential companies in this field, both inside and outside Silicon Valley.

While we are a well-established mid-size company, we operate more like a start-up so we are looking for a **hands-on**, service oriented and “get-it-done” EMC Engineer in fulltime.

Responsibilities:

- Customary duties of EMC engineer including testing intentional and unintentional radiator devices to determine compliance with European and FCC standards
- Creating test plans based upon the applicable testing standards
- Producing technical reports following the testing for certification, and related professional duties.

Qualifications:

- Master’s degree
- Two years of experience in EMC Engineering

We offer competitive salary along with an excellent benefits package including 100% employer paid medical/vision/dental/disability/life insurance, 401(K) plan with 100% matching, tuition reimbursement, a generous PTO plan, paid holidays, and more.

For consideration, please submit your resume to HR: us-hr@cetecom.com
